

URGENT PETITION

➤ Please circulate this petition in your church and amongst your contacts so that we can maximise support to pass legislation ensuring our children are protected from the threat of online pornography. Thank you.

To: The Rt. Hon. Jeremy Hunt- Secretary of State for Culture, Olympics, Media and Sport

We are deeply concerned about the impact of online pornography on our children. Studies show that the single largest group of internet pornography consumers are children aged 12-17; 81 percent of 14-16 year olds regularly access explicit photographs and footage on their home computers; and one in three 10 year olds have stumbled upon pornography online.

In order to preserve the innocence of our children and to protect them from material that could cause physical, mental or moral harm we are calling on the Government to make it compulsory for Internet Service Providers to block pornography at source so that pornography can only be accessed by an adult exercising an active choice.
